PRAK SEREYVISAL

FULL-STACK SOFTWARE DEVELOPER

PROFESSIONAL PROFILE

Full-stack Software Developer based in Phnom Penh, Cambodia, with hands-on experience designing and deploying scalable web applications using Python (Django, DRF) and C# (.NET Core). Shipped 10+ production applications featuring real-time SignalR notifications, RESTful financial APIs, and full e-commerce/LMS systems. Holds 10+ Cisco-verified certifications in Python, cybersecurity, and network administration, alongside the Cisco Learn-A-Thon 2025 Achievement Award.

SELECTED PROJECTS

Online Learning System

Django DRF PostgreSQL Render

Full-featured LMS enabling students to browse courses, track progress, and enroll securely. Built with Django REST Framework and PostgreSQL.

🔗 ols-system.onrender.com

WebPlanner Task Manager

ASP.NET 8 C# SignalR PostgreSQL

Task management platform supporting sub-tasks, attachments, priorities, and real-time updates via SignalR websocket feeds.

🔗 webplanner-kp7n.onrender.com

Bank Account REST API

Django DRF Python PostgreSQL Vercel

Financial transaction API managing account lifecycle, deposits, withdrawals, and detailed audit trails secured via JWT authentication.

🔗 bank-account-api-nu.vercel.app

Django POS System

Python Django PostgreSQL Bootstrap

Retail POS application featuring product inventory management, cart calculation, printable receipts, and daily sales analytics.
